

Hot to make Issues?

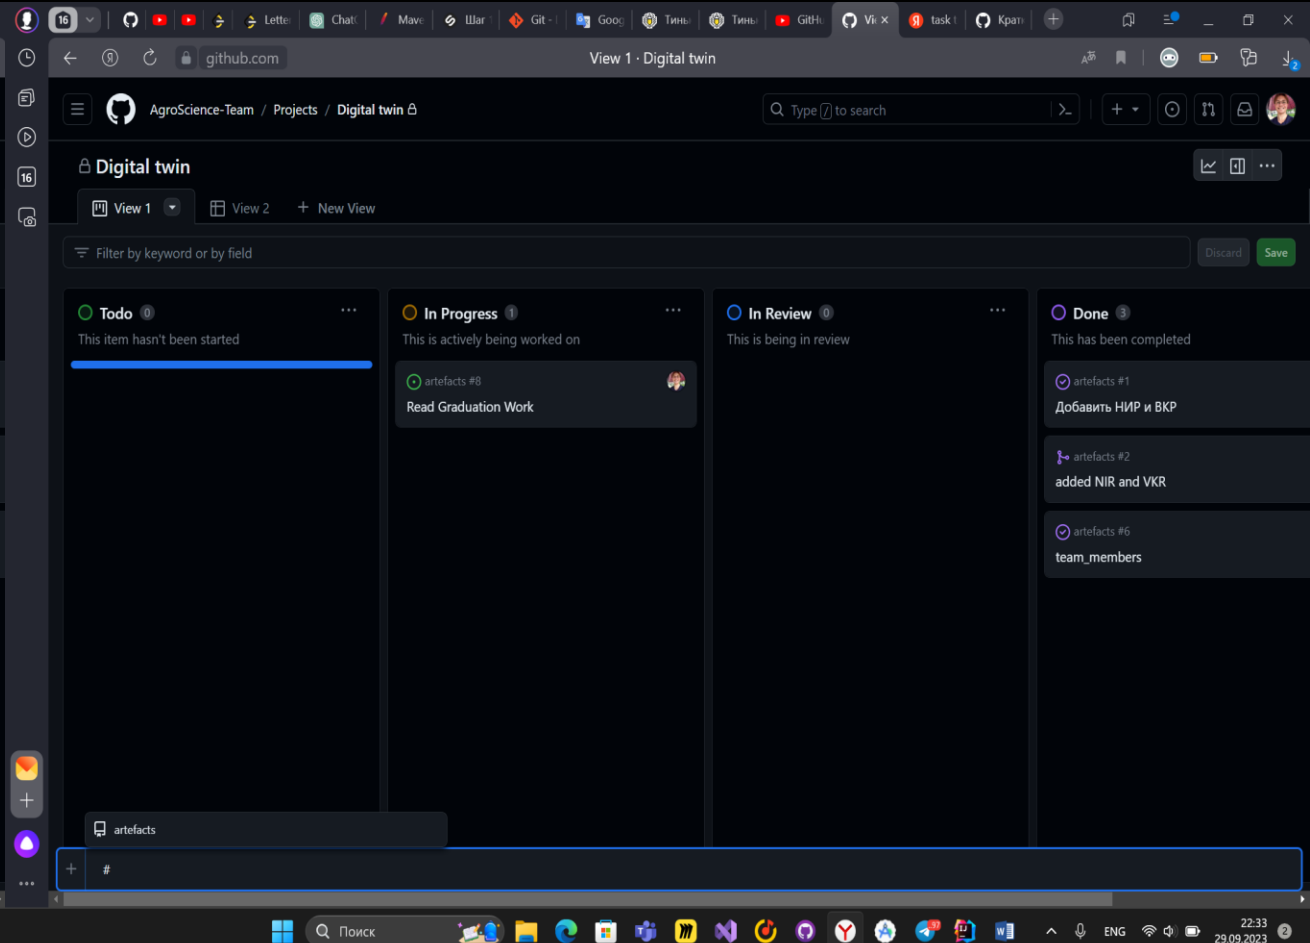

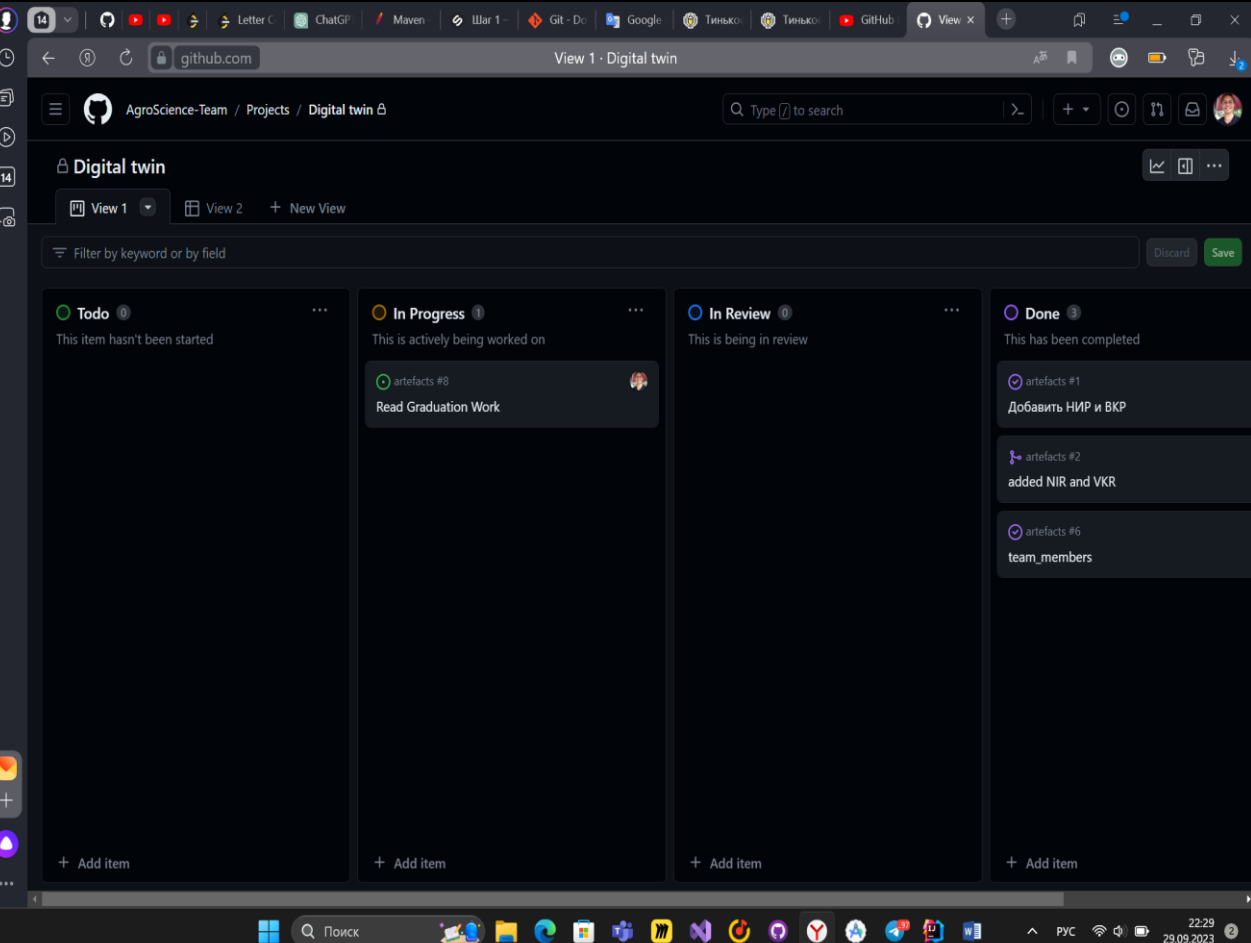

Open our organization AgriScience-Team in github. The URL should look exactly like the screenshot. Then click on projects.

There click on Digital twin. This our board for task tracking.

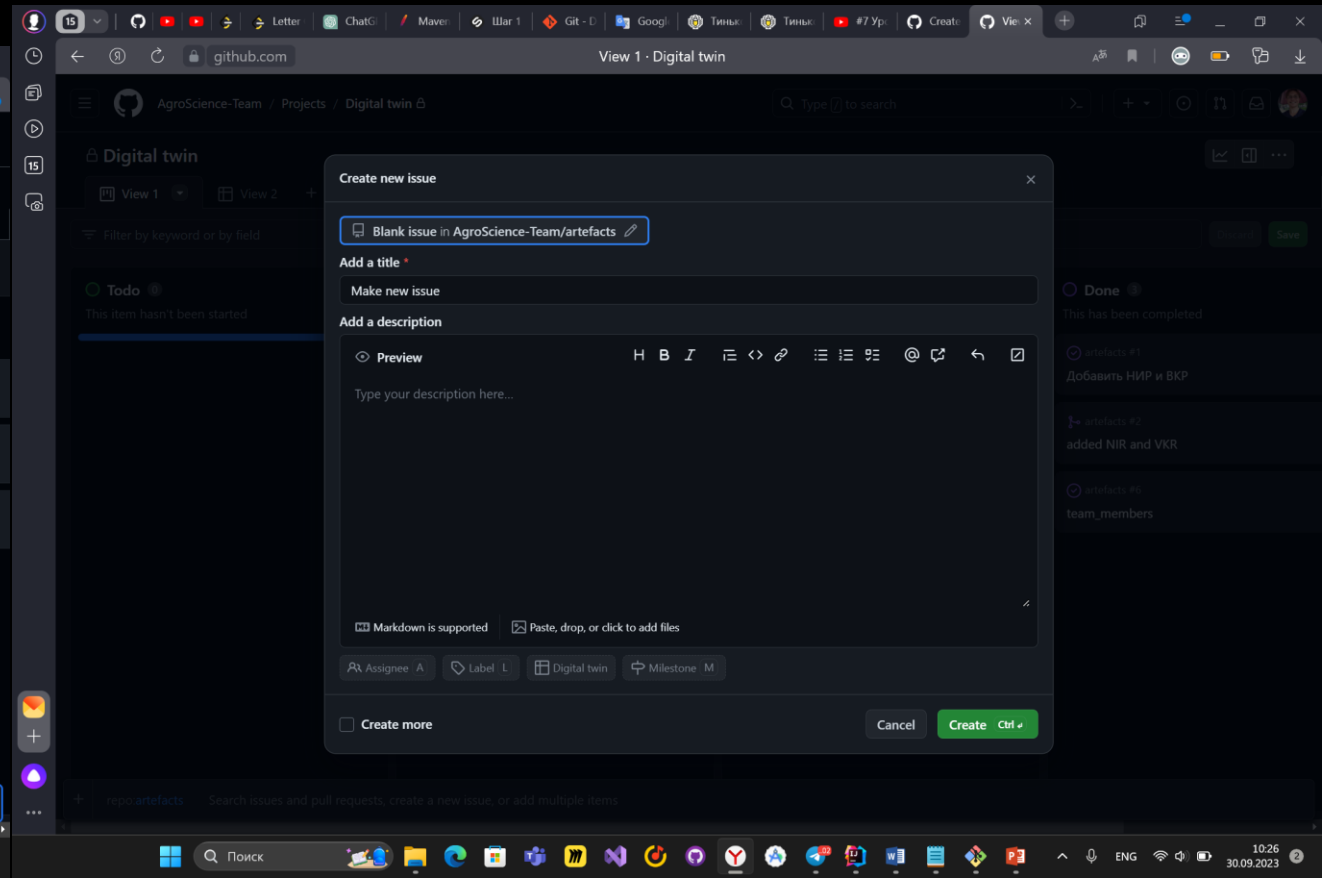

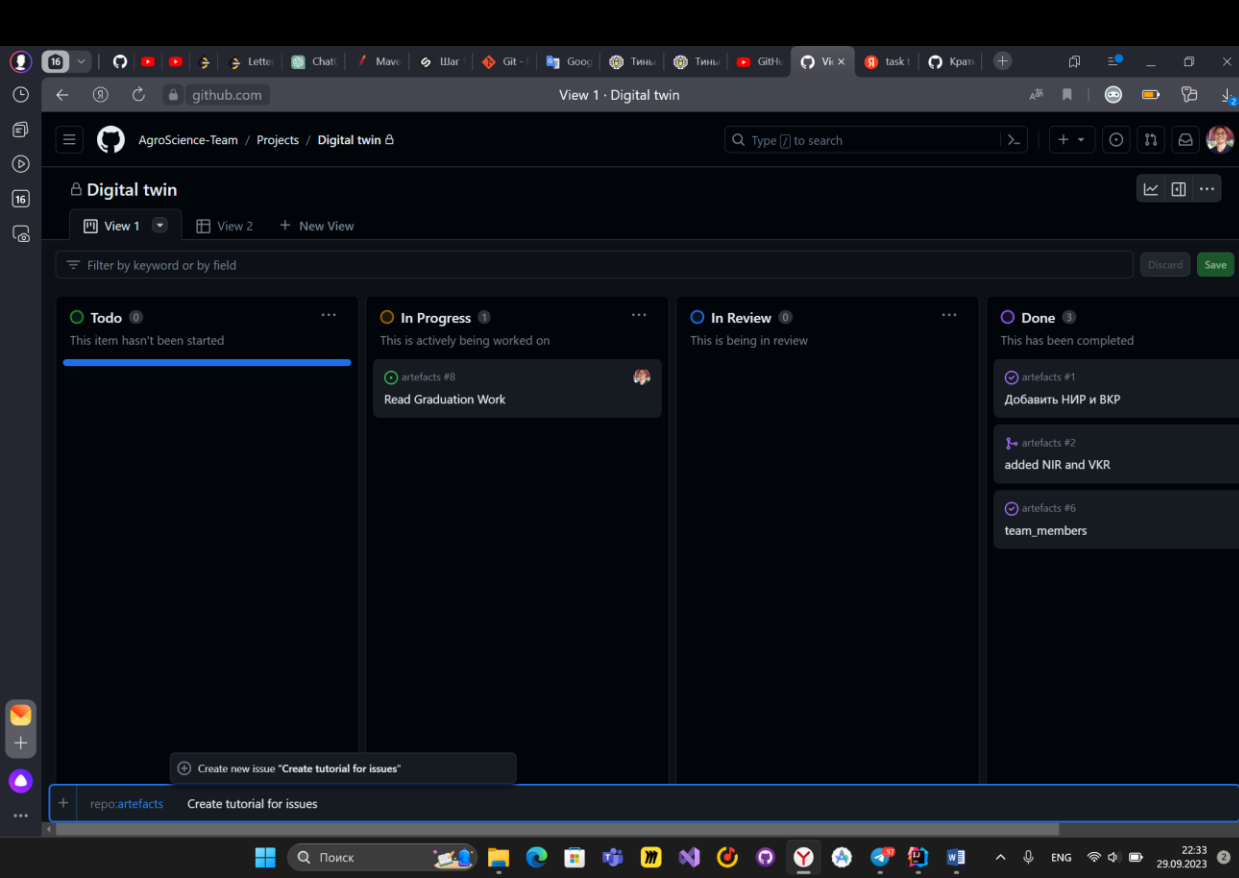

There you can see all tasks of users. here you can see all the tasks of team members. Click on “Add item” on Todo table.

First, write # and select the repository (storage) to which the task will be sent. Tasks that do not require coding (presentations, reading something, etc.) are sent to artefacts repository.

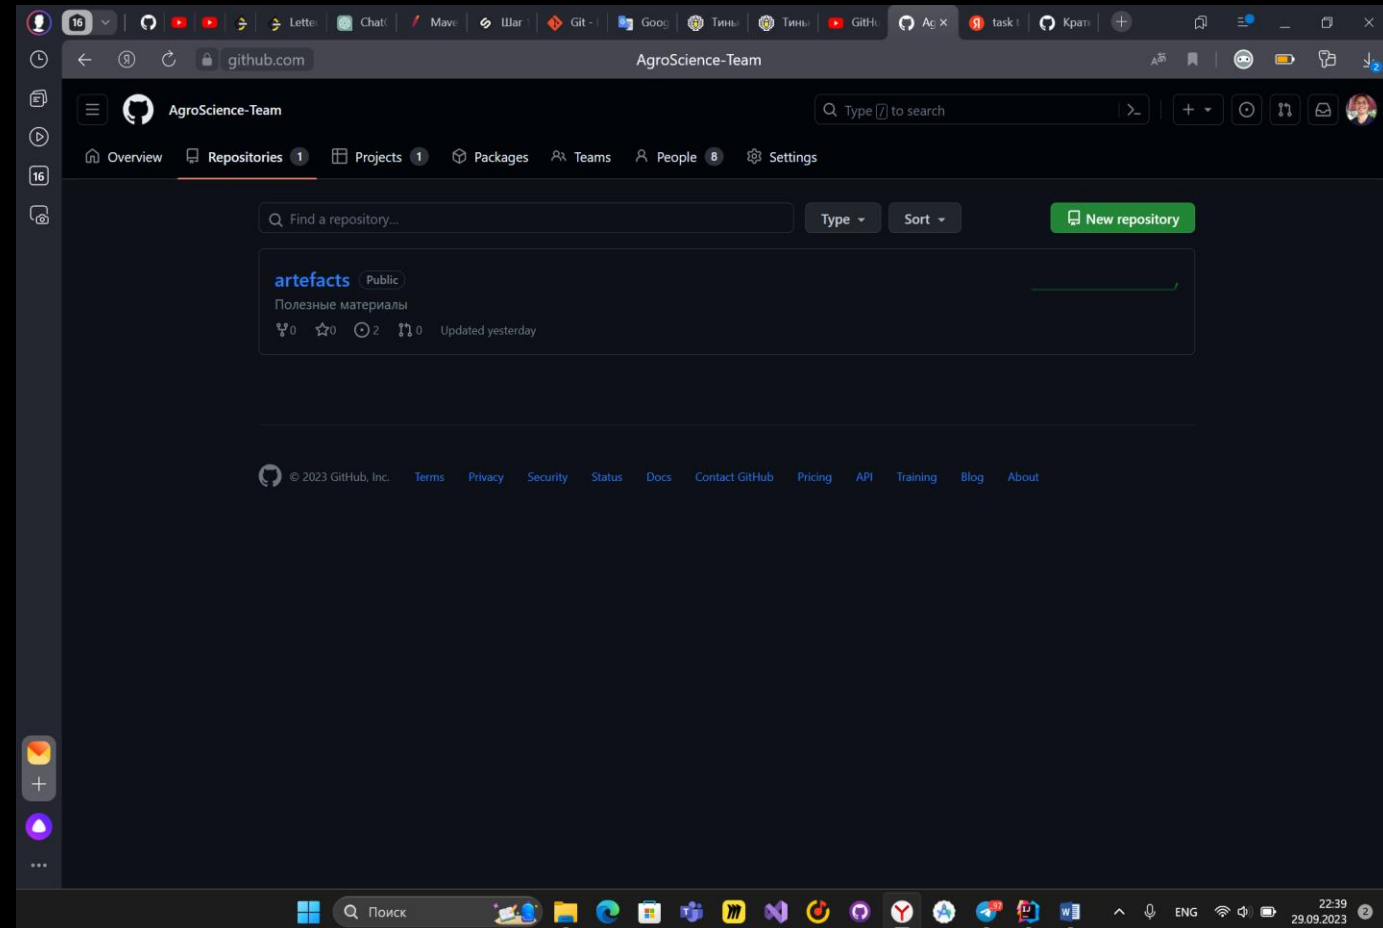

Write title of
issue. Click on
create new
issue

Select label and Assignee in the
pop-up window

Come back to the first url:
<https://github.com/AgroScience-Team>. Click on repositories and click on repository that you select before for issue.

Click on issues

Create tutorial for issues documentation

#9 opened 5 minutes ago by asavershin

Read Graduation Work documentation

#8 opened 11 hours ago by asavershin

ProTip! Find all open issues with in progress development work with linked:pr.

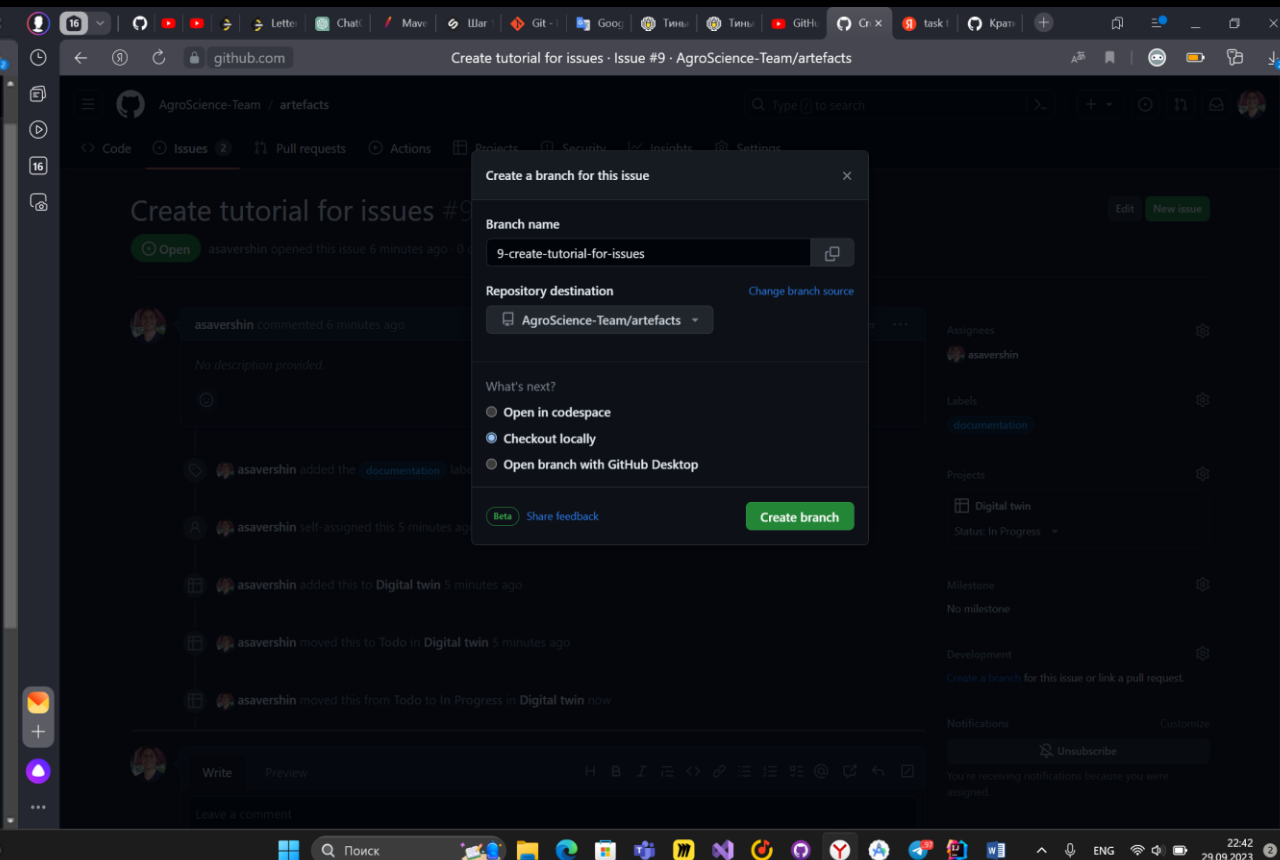

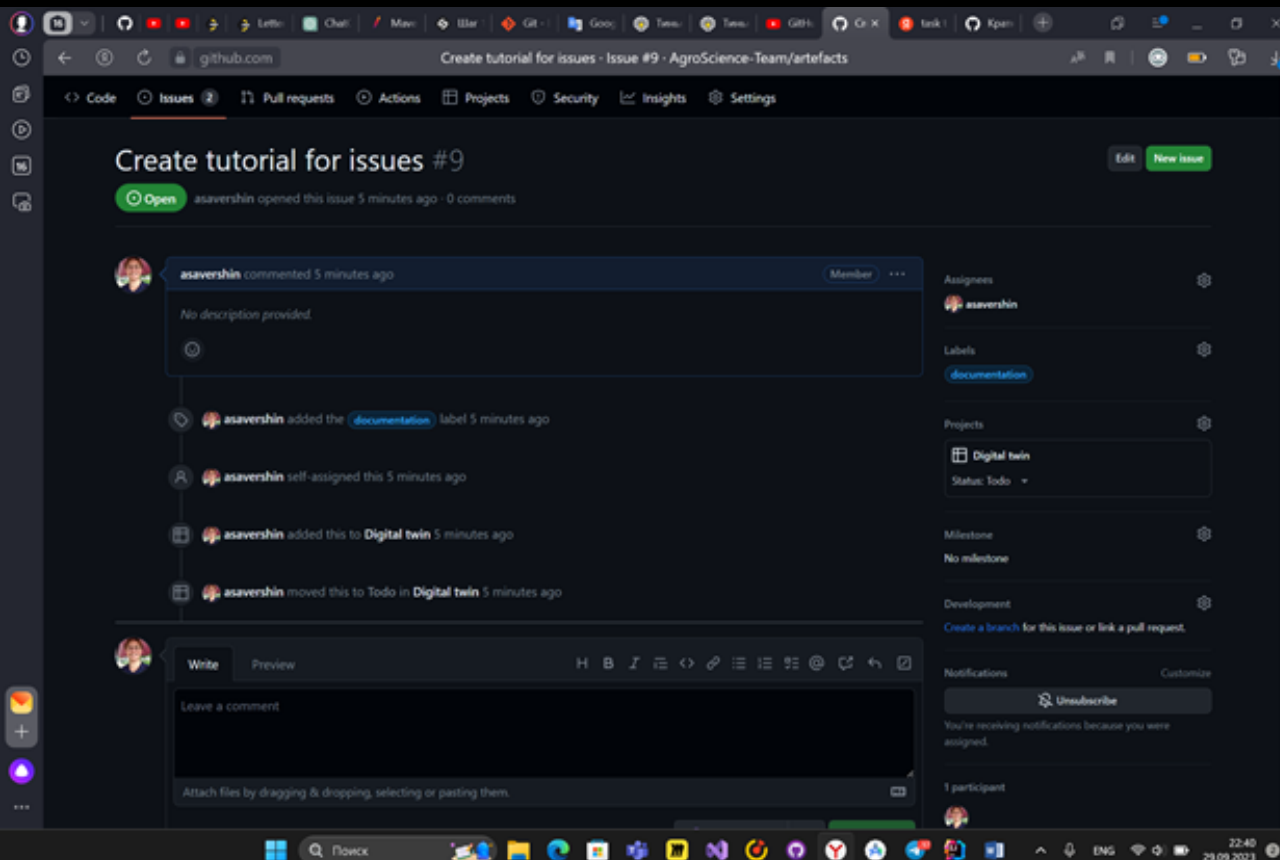

© 2023 GitHub, Inc. Terms Privacy Security Status Docs Contact GitHub Pricing API Training Blog About

Please, do not change the default name of branch. Click on create branch.

On this page you change status of issue.
From todo to inProgress for example.

If your issue requires adding files or coding
so click on create branch.

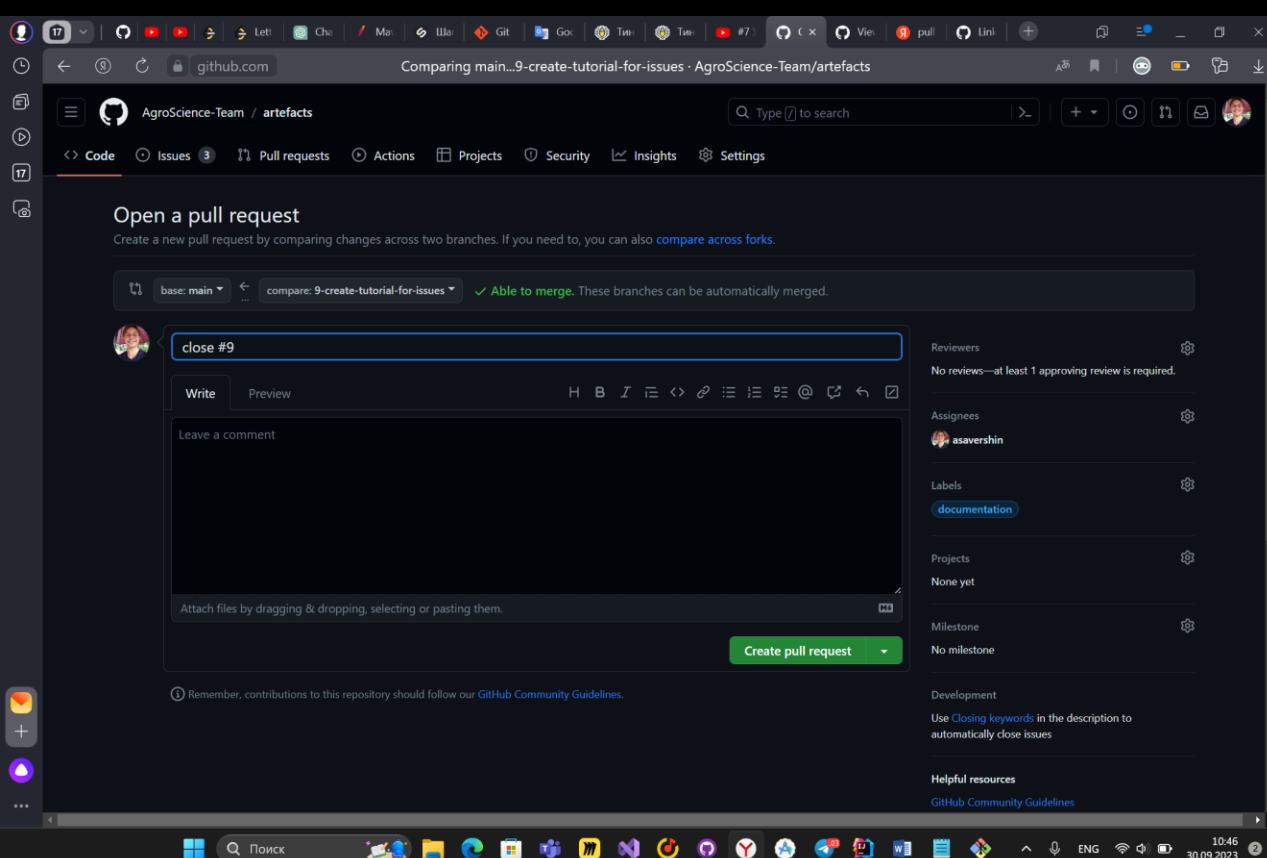

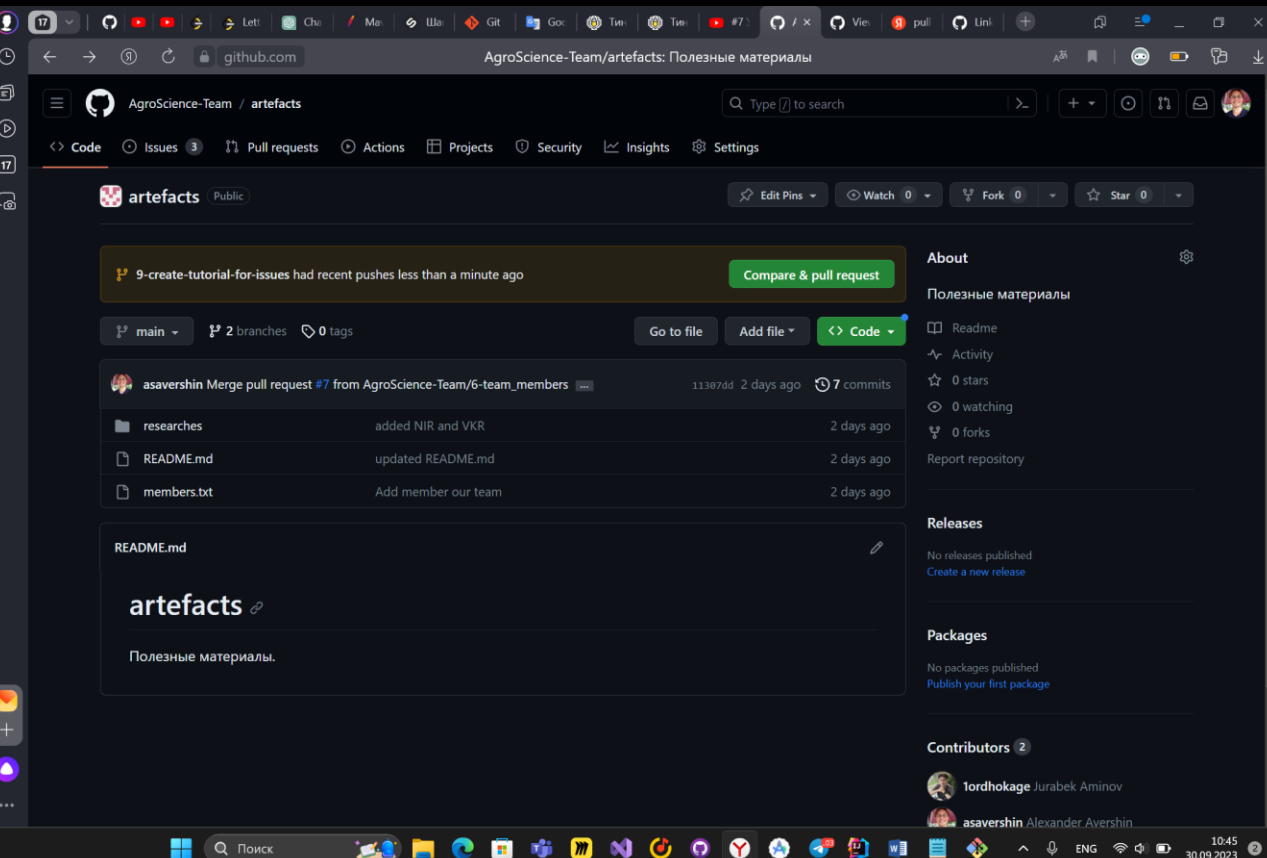

After this you must pull this repo and then
checkout on this branch(localy of course)
and then make pull request. Hou to do this
you can see in the internet

Click on Compare & pull request

In title write close #NUMBER_OF_ISSUE. Select correct label and assignees like in issue you want close.

There you can read more about this
<https://docs.github.com/en/issues/tracking-your-work-with-issues/linking-a-pull-request-to-an-issue>

You can see that your pull request linked with your issue. That's good.

Choose the reviewer and waiting for review.

After reviewing merge your feature and do not forget delete branch.

There 1ordhokage
did it instead of
me, but this is
simple, so do not
forget pls.

If you do not understand smth or need help, write your team

The image is a screenshot of a web browser displaying a GitHub pull request page. The browser's address bar shows the URL 'github.com' and the page title 'close #9 by asavershin · Pull Request #11 · AgroScience-Team/artefacts'. The main content area shows a commit history with a merge commit by '1ordhokage' and a comment by '1ordhokage' saying 'Nice'. The right sidebar contains metadata for the pull request, including Assignees (asavershin), Labels (documentation), Projects (None yet), Milestone (No milestone), Development (Successfully merging this pull request may close these issues), and Notifications (Unsubscribe). The bottom of the screen shows a Windows taskbar with various application icons and the system clock at 20:20 on 30.09.2023.
